Forecast For Northeast England
Issued by Met Office Exeter
at 0400 on Monday 26 Jul 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Early cloud breaking to sunny spells and inland heavy showers.

Today:
Early low cloud and intermittent light rain or drizzle should gradually break up to reveal a warm and humid day of sunny spells. Scattered showers will also develop inland, some heavy and slow-moving with a risk of hail and thunder. Maximum temperature 26 deg C (79 deg F).

Tonight:
Showers largely fading during the evening to leave a mild night with clear spells generally and some fog patches inland. Isolated sharp showers perhaps continuing in the cloudier north, however. Minimum temperature 10 deg C (50 deg F).

Tuesday:
Perhaps brightest in parts of the south first thing in an otherwise cloudier day of spells of rain punctuated by heavier, perhaps thundery showers. Generally less warm. Maximum temperature 25 deg C (77 deg F).

Outlook for Wednesday to Friday:
Perhaps wet to start Wednesday but otherwise more changeable and breezy through this period, with a mixture of sunshine and showers, some heavy and thundery. Temperatures lower than recently.
